

I'm a truck driver & I use XM radio instant traffic & weather whenever I'm in or going to a major city. It is up to date & always there when I need to know. On time delivery and pick-ups are very important. With XM traffic I know when there's a back up or accident and where. Do NOT take this away!! I pay for this service.

I ask that you oppose NAB's petition 04-160
